Keynote Testimonials

“Thank you for a truly inspiring day! The impact you have had on our people will carry forward and permeate the organization long beyond yesterday, as we set out as a team to lead Liquidnet towards the summit of our new vision.”

Todd Cherches, Liquidnet Holdings Inc, New York

“Rex is a remarkable young man and his achievement in conquering Everest at the tender young age of 21 speaks for itself. His stories of preparation, determination and overcoming the significant challenges en-route to ultimate victory are captivating and extremely motivational.”

Vice President and General Manager, Hewlett Packard Company

“Rex? Simply Exceptional. The best keynote I have ever attended.”

Peter Williams Panasonic

“This visually impressive program is one of the best we've ever seen. Thousands of people could talk to us about values and teamwork, but you actually show us and let us experience it for ourselves. The response has been very positive, the participants immediately applying the learning on an individual and team level.”

Bill Watkins, CEO Seagate Technologies

“Rex's journeys and delivery were very uplifting to the organization as we chart our course to success this fiscal year. His adaptation of connecting his goals and struggles associated with climbing Everest and the other peaks and our business issues and challenges proved to be very effective.”

Senior Vice President - JDSU

“I feel like asking Pemberton if he needs an extra climber. He has an infectious enthusiasm. We will all be inspired to find our own mountain' to climb.”

Program & Workshop Testimonials

“Quite simply the best event we have ever had.”

Managing Director, McDonalds Australia

“It was amazing to observe the team moving from the start of the day where they were visibly acting as individuals, then small teams, moving to a 'one team' approach. This has been brilliant, and has transferred back to the office, with everyone being a lot more open and communicative. Very Effective indeed”.

Sophie Kysil, HR Consultant, Commonwealth Bank Australia

“Thank you for your firm’s help with facilitating the creation of the finance vision for Hewlett-Packard. Without your ideas and help we would not have built as compelling a vision, or the grass roots support for it.

It is truly what is keeping the finance function focused and on track during these very tough times”.

Cathie Lesjak, Chief Financial Officer, Hewlett Packard

“One of the best management development exercises I have participated in. What really impressed me was how quickly the team got engaged, which speaks to the relevance and realism of the scenarios. The way the programme had been tailored to draw out the implications of our Corporate Principles was excellent. I am confident most participants would have gained some real insights into how we can take teamwork to the next level”.

Michael Ullmer, CFO, National Australia Bank

“Clear insights for the organization were provided in relation to identifying natural leaders, good team diversity and how our people adapt to change, risks and challenges. The program was a great way to reinforce our team’s commitment to short and long term goals and ultimately the success of the company.”

Clynton Bartholomeusz, Managing Director, Beiersdorf
